### 5 Pin Half Helmet Helmetless Headset

\$80.00

The IMC 5 Pin half helmet headset is designed for the factory installed intercom system on the Honda Goldwing (Yamaha Venture etc.). This kit allows you to utilize the built in bike system with a half helmet or no helmet. Now you don't have to let your headset make you use a certain type of helmet. This combo provides the performance of headsets costing twice as much with half the warranty.

The rugged coiled connecting cord is designed for years of reliable service. The over the ear speakers offer excellent sound quality and do not require a helmet to install.. The special noise cancelling microphone will make this a must-have for your next trip. Works with any Honda, Kawasaki, or other 5 pin sysyem.

#### Features

- Directional noise cancelling microphone reduces ambient noise for crisp communication.
- Half helmet headset wraps comfortably around back of head so no installation or helmet is required.
- Flat panel speakers provide with metal casings provide great range of sound for music and loud audio for intercom.
- Superior quality, the product is backed by a two year warranty.

#### Specifications

- Speakers: Stereo speakers with over the ear mounting headset
- Microphone: Flexible noise cancelling boom microphone.
- Cable: Two piece coiled cable with firewire connector. Length up to 100cm
- Connector: 5 Pin headset for Honda Goldwing, Yamaha Venture etc.
