### **6 Pin BMW & CB Helmet Headset**

\$75.00

The IMC Headset for open face and modular helmets features a two piece cord with everything needed to take advantage of the intercom/music system on a BMW Motorcycle an unbeatable price. Simply install the headset into your helmet, plug the DIN connector cord into your bike, and start enjoying your factory system on any adventure you may take. This kit includes a boom microphone for  $\hat{A}^{3/4}$  helmets, although it can be used with full face helmets as well. This combo provides the performance of headsets costing twice as much with half the warranty. This product is also compatible with 6 pin CB radios.

The rugged coiled connecting cord is designed for years of reliable service. The slim (6mm) speakers offer excellent sound quality and are easy to install. The special noise cancelling microphone will make this a must-have for your next trip. Works with the BMW 6 pin system and 6 pin CB radios.
